EDUCATION

Ph.D., MIT September 2012 - September 2017

Microbiology
Advisor: Martin Polz
Thesis: Horizontal gene transfer as a cohesive force in microbial populations.

Sc.B., Brown University, with honors September 2007 - May 2011

Applied Mathematics-Biology
A.B.: Classics
Advisor: Jeremy Rich
Thesis: Diversity of anammox bactera in ocean sediments.

RESEARCH EXPERIENCE

University of Chicago, Department of Ecology and Evolution, Lab of Sarah Cobey

Ruth L. Kirschstein NRSA Postdoctoral Fellow Starting September 2019
Postdoctoral Scholar September 2017 - Present

- Modeling the effects infection history on susceptibility to influenza.
- Developing a computational method to identify influenza epitopes.
- Inferring factors responsible for the specificity of the human antibody response against influenza.

MIT, Microbiology Graduate Program, Lab of Martin Polz

NSF Graduate Research Fellow September 2012 - August 2017

- Developed a method to identify microbial populations in networks of horizontal gene transfer.
- Inferred the history of a polysaccharide degradation pathway in a group of marine bacteria.
- Assembled and analyzed a collection of over 700 marine bacterial isolates.

Woods Hole Oceanographic Institution, Lab of Stefan Sievert

Research assistant July 2011 - August 2012

- Analyzed microbial community composition in oxygen minimum zones and hydrothermal vents.

Brown University, Department of Ecology and Evolutionary Biology, Lab of Jeremy Rich

Research assistant Februrary 2009 - May 2011

- Assessed the diversity of anammox bacteria in ocean sediments.

Honors and Awards

Ruth L. Kirschstein NRSA Postdoctoral Fellow — Starting September 2019
NSF Graduate Research Fellow — September 2012 - September 2017

MIT Energy Initiative BP Energy Fellow — September 2012- September 2013

Povar Prize in Zoology and Physiology (awarded in recognition for outstanding academic achievements in physiology or zoology at Brown University) — May 2011

Society of Sigma Xi — May 2011

Teaching and Mentorship Experience

University of Chicago

Guest lecturer, Evolutionary and Genomic Medicine — Winter 2018 and Winter 2019

MIT

Kaufman Teaching Certificate Program — Summer 2017
Rotation student advisor, Jai Padmakumar — Spring 2017
Teaching assistant, Microbial Population Genomics — Fall 2016
Rotation student advisor, Joseph Elsherbini — Winter 2015
Teaching assistant, Microbial Genetics and Evolution — Fall 2014

Centro de Biología Molecular, Managua, Nicaragua

Lecturer, bioinformatics workshop — March 2014

Service

University of Chicago

Organizer, Ecology and Evolution Theory Group — Fall 2018 and Winter 2019

MIT

Graduate Resident Tutor — March 2014 - May 2017
Ran regular study breaks, assisted in conflict resolution, and insured general well-being of undergraduate students in a residential setting.

Co-organizer, Microbial Engineering and Science Seminar — September 2014 - May 2015

SPLASH instructor — November 2013 and November 2015
Taught high school students at annual event organized by members of the MIT community.

Cambridge Rindge and Latin School, a local public high school

Guest lecturer, Biotechnology III — November 2016

Brown University

Writing Fellow — September 2008 - May 2011
Provided writing support for ten students per semester focused on argumentation, style, and clarity.
